List

HORSFORD'S *Lilies for Sure Planting*

Green Mountain Hybrids

AMABILE. A rare Korean of interesting shape. Grenadine-red, freely spotted black. July. 3 to 4 ft. 75c each, \$7.50 per doz.

AURATUM. Var. *platyphyllum*. The strikingly large and beautiful Gold Banded Lily you've asked for. Blooms 3 to 5 ft. July-Sept. \$1.00 ea.

AURELIAN HYBRIDS. Var. *Golden Sunburst*. Star-shaped flowers, true lemon and gold-yellow. Petals, very slightly recurved. Graceful sprays 5 to 8 ft. 6-7 in. bulbs. Aug. to Sept. \$1.50 ea.

CANADENSE. Although we do not guarantee the color of this wild Lily, everything else about it is all right. May be a brick red, or a clear golden yellow. June, July. 2 to 5 ft. 50c each, \$5.00 per doz.

DAVIDII. A very vigorous and dependable Lily of Turk's Cap type. Numerous red flowers. July-August. 4 to 6 ft. 60c each, \$6.00 per doz.

GREEN BUSH HYBRIDS. New. Large upright or outward facing flowers, slightly reflexed, on rugged stems of various heights and with a great range of colors. Early July flowering. 1½ to 3 feet tall. \$1.00 each, \$10.00 per doz.

GREEN MOUNTAIN HYBRIDS. Large trumpets of white with yellow or green coloring in the throats. Three to 5 ft. high with a three- to four-week flowering season in mid-summer. \$1.25 each, \$12.50 per doz.

HENRYI. Given heights will vary with soil and growing conditions, but we've honestly seen this Lily 9 ft. high. Very easy to grow, too. Graceful sprays of brilliant apricot-yellow. August, September. 60c each, \$6.00 per doz.

PHILIPPINENSE FORMOSANUM. A variety of refined and graceful appearance, with long, grassy foliage. It reaches 4 ft. with long trumpet flowers, pure white. August-September. Must be spring-planted. 75c each, \$7.50 per doz.

PRIDE OF CHARLOTTE. This stately offspring of *L. sargentiae* is more rugged than its parent. Long,

While our list of the hardy lilies is not as large as that offered by some dealers, we make special efforts to ensure a clean, healthy stock from which we can fill our orders. Our list is mostly of varieties that can be produced from seed.

We can offer the following varieties in healthy stock and we give complete cultural directions with every order.

white funnel-shaped flowers with yellow throat and sometimes marked externally a deep reddish brown. 3 to 4 ft. July. \$1.00 each, \$10.00 per doz.

REGALE. A truly Regal beauty, and the best behaved queen of the lot. Parade her before a royal curtain of *Delphinium* to show her off to best advantage. White, slightly suffused with pink, shading to beautiful shade of canary yellow at the throat. July. Large bulbs 75c each, \$7.50 per doz.

SPECIOSUM RUBRUM. Delicate pink with deep crimson dots. Oregon grown and disease free stock. July-August. 75c each, \$7.50 per doz.

SPECIOSUM WHITE CHAMPION. A variety from the favorite "rubrum lily" but crystal white. July-August. \$1.00 ea.

SUPERBUM. America's handsomest native Lily, in our opinion, with its immense, pyramidal cluster of blooms right up high where you can admire them. Brilliant orange-red shading to yellow and spotted with brown. July. 4 to 6 ft. 45c each, \$4.50 per doz.

TENUIFOLIUM. A small slender growing Lily, not more than eighteen inches tall, with bright scarlet flowers and recurved petals. One of the prettiest little lilies in cultivation. Early June. 12 to 18 in. 35c each, \$3.50 per doz.

TENUIFOLIUM. Var. *Golden Gleam*. A fine type of *L. tenuifolium* with flowers of a beautiful apricot shade. A free and vigorous grower. 50c each, \$5.00 per doz.

TIGRINUM. Var. *splendens*. By far the best form of Tiger Lily we have had. It is taller, with handsome, large flowers and a much healthier plant. 60c each, \$6.00 per doz.

L. UMBELLATUM WEST BURKE. A strain of *Umbellatum* discovered by the late Cyrus Pringle Horsford, of outstanding vigor. Its cup-shaped blooms of deep red are carried on stems up to two and a half feet tall in early June. Its wooly buds are a dark red. Likes both open sun and shade. Rare. 60c each.

EASY-TO-GROW FERNS

For Shady or Difficult Locations

FOR THE OPEN BORDER

Mostly tall Ferns with bold, broad foliage, and imposing appearance. They are adapted to sunshine but need the shelter of adjacent plants about the base of the fronds. Plant them in mixed groups among low shrubs.

- 6 *Osmunda claytoniana*. 2-3 ft.
- 6 *Onoclea struthiopteris*. 3-4 ft.
- 18 *Dicksonia punctilobula*. 1-2 ft.
- 6 *Asplenium felix-foemina*. 1-3 ft.

36 Ferns for \$8.00

FOR WET, OPEN GROUND

No trouble at all to find ordinary plants for wet, open ground but not many Ferns are adapted to the sunshine. Use rushes or flowering plants freely in such situations.

- 12 *Onoclea sensibilis*. 1 ft.
- 12 *Osmunda regalis*. 2-3 ft.

24 Ferns for \$5.50

Asplenium felix-foemina

FOR DRY, ROCKY LEDGE

Some of the choicest little Ferns are found in such places in nature. Mostly they are dwarf—frequently half evergreen—but always charming in outline, texture and aspect.

- 12 *Asplenium trichomanes*. 3-6 in.
- 12 *Woodsia obtusa*. 6-12 in.
- 12 *Polypodium vulgare*. 6 in.
- 12 *Woodsia ilvensis*. 6 in.

48 Ferns for \$10.50

FOR MOIST, SHADY PLACES

The wealth of plants which will flourish in moist, shady places is embarrassing. Ferns are no exception. Choose those of relatively low stature, among which to mingle blooming plants such as bog orchids.

- 6 *Adiantum pedatum*. 1-1½ ft.
- 6 *Aspidium cristatum*. 1 ft.
- 6 *Polystichum acrostichoides*. 1 ft.
- 6 *Aspidium spinulosum*. 1½-2 ft.
- 6 *Aspidium marginale*. 1½-2 ft.
- 6 *Asplenium acrostichoides*. 3 ft.
- 6 *Asplenium felix-foemina*. 1-3 ft.
- 6 *Phegopteris hexagonoptera*. 1 ft.
- 6 *Asplenium angustifolium*. 2-3 ft.

54 Ferns for \$11.00

FOR DRY, SHADY PLACES

Under trees, in the shade of buildings where the soil is too dry for blooming plants, these Ferns may adapt themselves or if not all, some may. Dry shade is one of the gardener's hardest problems.

- 9 *Aspidium marginale*. 1½-2 ft.
- 9 *Dicksonia punctilobula*. 1-2 ft.
- 9 *Osmunda claytonia*. 2-3 ft.
- 9 *Polystichum acrostichoides*. 1 ft.

36 Ferns for \$8.00

Any of the above Ferns 35c each, 6 for \$1.50, \$3.00 per doz.

If you are interested in Evergreens, Roses, Vines, Shrubs and Trees which are usually sold here at the Nursery, write for List.

50 cts. each, 3 of the same kind for \$1.25, \$5.00 per doz., except as otherwise noted.

Hardy Chrysanthemums

Lupine

These plants are hardy in northern Vermont under congenial cultural conditions, but need protection against winter heaving from alternate freezes and thaws. WE ARE RESPONSIBLE for filling your order with stock true to name and in GOOD CONDITION. If not received in good condition, complaint must be made at once.

We cannot assume responsibility for CULTURAL FAILURES beyond our control nor for failures due to drought and winter losses.
